

## **Purpose**

---

MICHIGAN STATE UNIVERSITY  
INFRASTRUCTURE PLANNING AND FACILITIES

1. The data contained herein was compiled by Facilities Information Services, as of June 30th, 2024, with the cooperation of the other Infrastructure Planning and Facilities Departments.
2. This report contains information relative to Michigan State University owned buildings and miscellaneous structures on the East Lansing Campus and some Off Campus locations and includes the following:
  - Square footage, building construction costs, building replacement values, years built, and building architects.
  - Square footage is based on definitions by the APPA: Leadership in Educational Facilities and AIA Standard D101.
3. This data is intended for use in estimating cost, overall design of utilities, and to furnish general building information for administrative use.

Dan Bollman

Associate Vice President for Strategic Infrastructure Planning and Facilities

### **Note:**

**The facility data was migrated from FAMIS to Planon in January 2024. There were many efforts to clean-up, update and reconcile the facility information. The information may be different than in previous reports to correct past information.**
